

## **Biography- ZINA ALFAHL**

Zina Alfahl joined the School of Pharmacy at Queen's University Belfast, UK in September 2018 to pursue her PhD degree. Her PhD thesis title is Clinical and Microbiological Endpoints in Chronic Airway Diseases. Prior to this, Zina completed her BSc (Hons) degree in Pharmacy in 2018. In 2019, she was awarded the Associate Fellowship of the Higher Education Academy (AFHEA) award. Zina's research interest focuses on airway infections and the relationship between microbiological endpoints and clinical measures. Zina has presented her work in several international conferences and she was awarded multiple awards during her PhD. Zina is interested in engaging with the scientific community and in promoting scientific research.
